 - **Areas of Interest:** Software Development, Website Designing, Full Stack Web Development
-

LANGUAGES KNOWN

- English
 - Tamil
-

MINI PROJECTS

- **[Virat Kohli Tribute page:](#)**
Created my first static website for former Indian Captain Virat Kohli as a tribute.
- **[TV show project:](#)**
Create my first API project which can retrieve tv show data and display them.
- **Yelpcamp:**
My first Full Stack Project Yelpcamp which is a web app, the users can add Campgrounds and review the other campgrounds, which is still in progress.
[GitHub Link](#)
- **Zen – A Ecommerce website:**
Zen is a ecommerce website where the users can view products, review the products,

add products to the cart, this is a web app which the users can toggle two ways (Customers, sellers).which has chatting systems between the customers and sellers. Customers can sort products by price, latest, and even brands, which is my first own idea full stack project. It is still in progress.
